for an appointment and directions.

Forth Environment Link

Forth Environment Link (FEL) works to promote, support and develop environmental education in the Stirling Council area and beyond.

Its purpose is to support education for sustainable development in schools, and to foster sustainable living at home, work and leisure.

FEL works in partnership with Scottish Natural Heritage, Stirling Council, Loch Lomond and the Trossachs National Park Rangers and the Stirling Landfill Tax Trust to deliver support, advice and grants to develop the use of the outdoors in education.

Education and Action towards Sustainable Living

Forth Environment Link

The Stirling Grounds for Learning Partnership delivers support, advice and grants to develop the use of the outdoors in education.

Education and Action towards Sustainable Living

Stirling Grounds for Learning Partnership Grant Scheme

Who can apply?

Stirling Council Primary and Secondary Schools, Partnership Nurseries and Play-groups and other Stirling Council Projects (e.g. Out of School Care)

How much is available?

Up to £1000 is available for projects aimed at learning about the outdoor environment first hand.

Contact Di at FEL
on 01786 449215 or
gfl@forthenvironmentlink.org
to find out more.

What is the funding for?

We particularly encourage projects which use planting and growing in ways which enhance learning about the environment.

March 2005

June 2005

Stirling Grounds for Learning Partnership Grant Scheme

We encourage projects which use planting and growing in ways which enhance learning about the environment through experience.

In 2005/6 the SGfLP supported projects including:

Creating a pond dipping space in a primary school.

Planting a new garden to attract wildlife in several primary and nursery schools.

Planting willow dens for imaginative play and increased biodiversity in schools and nurseries.

Stirling Grounds for Learning Partnership (SGfLP)

Linked projects:

The 'Heading Out' study tours give Head teachers, teachers and Stirling Council education staff the opportunity to visit Coombes Infant School, brainchild of Susan Humphries, renowned innovative educator. Participants are able to see and experience first hand an integrated approach to outdoor learning.

The SGfLP Special Development Award funded curriculum and school grounds development with Susan Humphries at Gartmore Primary in 2004 and Kincardine-in-Menteith Primary in 2005.
